Subject: Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) EC 1907/2006.

TOCOS Products

REACH is a new European Community Regulation on chemicals and their safe use ([EC 1907/2006](#)). It deals with the **Registration, Evaluation, Authorization and Restriction of Chemical substances**. The new law entered into force on 1 June 2007.

The aim of REACH is to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. At the same time, innovative capability and competitiveness of the EU chemicals industry should be enhanced. The benefits of the REACH system will come gradually, as more and more substances are phased into REACH.

TOCOS America will continually monitor REACH requirements for updates and changes to keep our web site and customers' current.

TOCOS is confident that there is **no** intentional content for the following substances in its Products: **Substances of Very High Concern (SVHC)**. The SVHC's are consistently being changed by the EC.
